# B I O

Olga Savelova is a Russian-born artist. Drawing has always been a passion for Olga since childhood - she drew constantly and with great enjoyment.

For Olga, being an artist is not just a profession, but a lifestyle, a world of perspectives and relationships. She's constantly noticing interesting scenes around her, striving to capture the beauty of landscapes, and reproduces delicate shades and color combinations.

Olga studied at the Sverdlovsk Art College named after Ivan Dmitrievich Shadra in Yekaterinburg, Russia, earning a qualification as a painter.

In 2011, Olga graduated from the Ural State Academy of Architecture and Arts in Yekaterinburg with the qualification of Easel Painter. She studied under the guidance of the honored artist and professor Nina Vasilyevna Kostina.

Olga founded the children's art studio "Artist", where every child can feel inspired and unleash their creative potential.

Olga lives and works in Tbilisi, Georgia.

**2021** Verkhneye Dubrovo House of Culture, Sverdlovsk Region, Russia

## GROUP SHOWS

**2020** Traditional Autumn Painting Exhibition. House of the Artist. Union of Artists of Russia, Sverdlovsk Regional Branch, Russia

# ARTIST STATEMENT

In my landscapes, I strive to convey the grandeur and beauty of nature, before which all human worries and problems pale in comparison. We often forget that we are an integral part of this amazing natural environment, but not its masters. Our strength is insignificant compared to its power – be it impassable mountains or raging storm waves.

However, when alone with nature, we can comprehend and accept its laws. In this unity, a mixed feeling of admiration, fear, and freedom is born. My Georgian landscape series embodies dreams of the boundless expanses of the sea, exhilarating mountain adventures, inner harmony, and freedom of spirit – everything that attracts us to free Georgia.

My painting aims to remind viewers of the unique connection between humans and the natural world around them, to evoke a sense of awe before its magnificence and fragility simultaneously. I hope to awaken in viewers a desire to preserve and cherish this priceless heritage.

# BEAUTY OF THE SEA

This series of paintings captures the serene majesty of the ocean in all its changing moods and atmospheric conditions. The artist has rendered the vivid blues, greens, and grays of the sea and sky with her deft brushwork, inviting the viewer to lose themselves in these tranquil marine vistas.

The varying shades of blue and green in the water reveal the ocean's depth and movement beneath the surface. Flecks of white froth hint at the power contained within the ebb and flow of the tide.

Squall transports the viewer into the dramatic scene of an approaching storm over open waters. Billowing gray clouds threaten from above as wild brushstrokes depict the rising swell and churn of the waves. One can almost feel the stinging spray of sea mist in this dynamic and atmospheric rendering of nature's formidable forces.

Whether sunlit or storm-tossed, static or kinetic, these seascapes draw the viewer into a deeply immersive experience of the ocean's eternal grandeur and rhythm. The artist's nuanced use of color, value, and brushwork conveys both the raw power and serene grace of the ever-changing seas. This series is a captivating exploration of marine landscapes that is sure to resonate with anyone drawn to the beauty and mystery of the boundless waters.

# URBAN SOUL

This collection of vibrant city scene paintings invites the viewer to become a roving flâneur, wandering through lively streetscapes and absorbing the unique energy that courses through each metropolis's veins. With thick strokes of vibrant oil paint, the artist portrays the kinetic movement, brilliant colors, and distinctive character of city life.

Through energetic strokes, bold palettes, and profoundly human perspectives, this series poignantly evokes the universal experiences that tie all cities together - the simultaneous beauty and grit, the cycles of noise and stillness, the perpetual confluence of cultures and characters. These urban vignettes thrumming with vitality celebrate the inherent soul to be found amid the asphalt, steel, and glass.

# LANDSCAPES FROM THE HEART OF GEORGIA

This exuberant collection of landscape paintings transports the viewer to the lush natural splendor of Georgia, rendered in an exaggerated palette of vivid, high-intensity hues. The artist has taken the region's iconic vistas - from mountain peaks and valleys to rural farmlands and winding rivers - and amplified their chromatic brilliance to dazzling effect.

Neon greens, brilliant crimsons and magentas, and electrified blues converge in this energetic encapsulation of the densely woven grasses, tannic creeks, and looming cloud formations that typify the state's marshy ecosystems. The high-octane palette amplifies the inherent vibrance and biodiversity. While not necessarily representations of Georgia's natural reality, these landscapes pulse with an expressionistic verve that encapsulates the unique sense of place. The eye-popping colors speak to the artists' passionate appreciation for the state's diverse and distinctive terrain. Through exaggerated pigments and impressionistic applications of paint, the works emanate energy, vivacity, and an abundance of life force. From the peaks to the lowlands, this series gloriously celebrates the grand kaleidoscope of nature.

# FOREST LIFE

With a deft hand and subtle palette, the artist ushers us into the secluded groves and sunlit glades where nature's quiet dramas unfold. Central to many compositions is the gentle presence of a mother goat, tender ambassador of the wild.

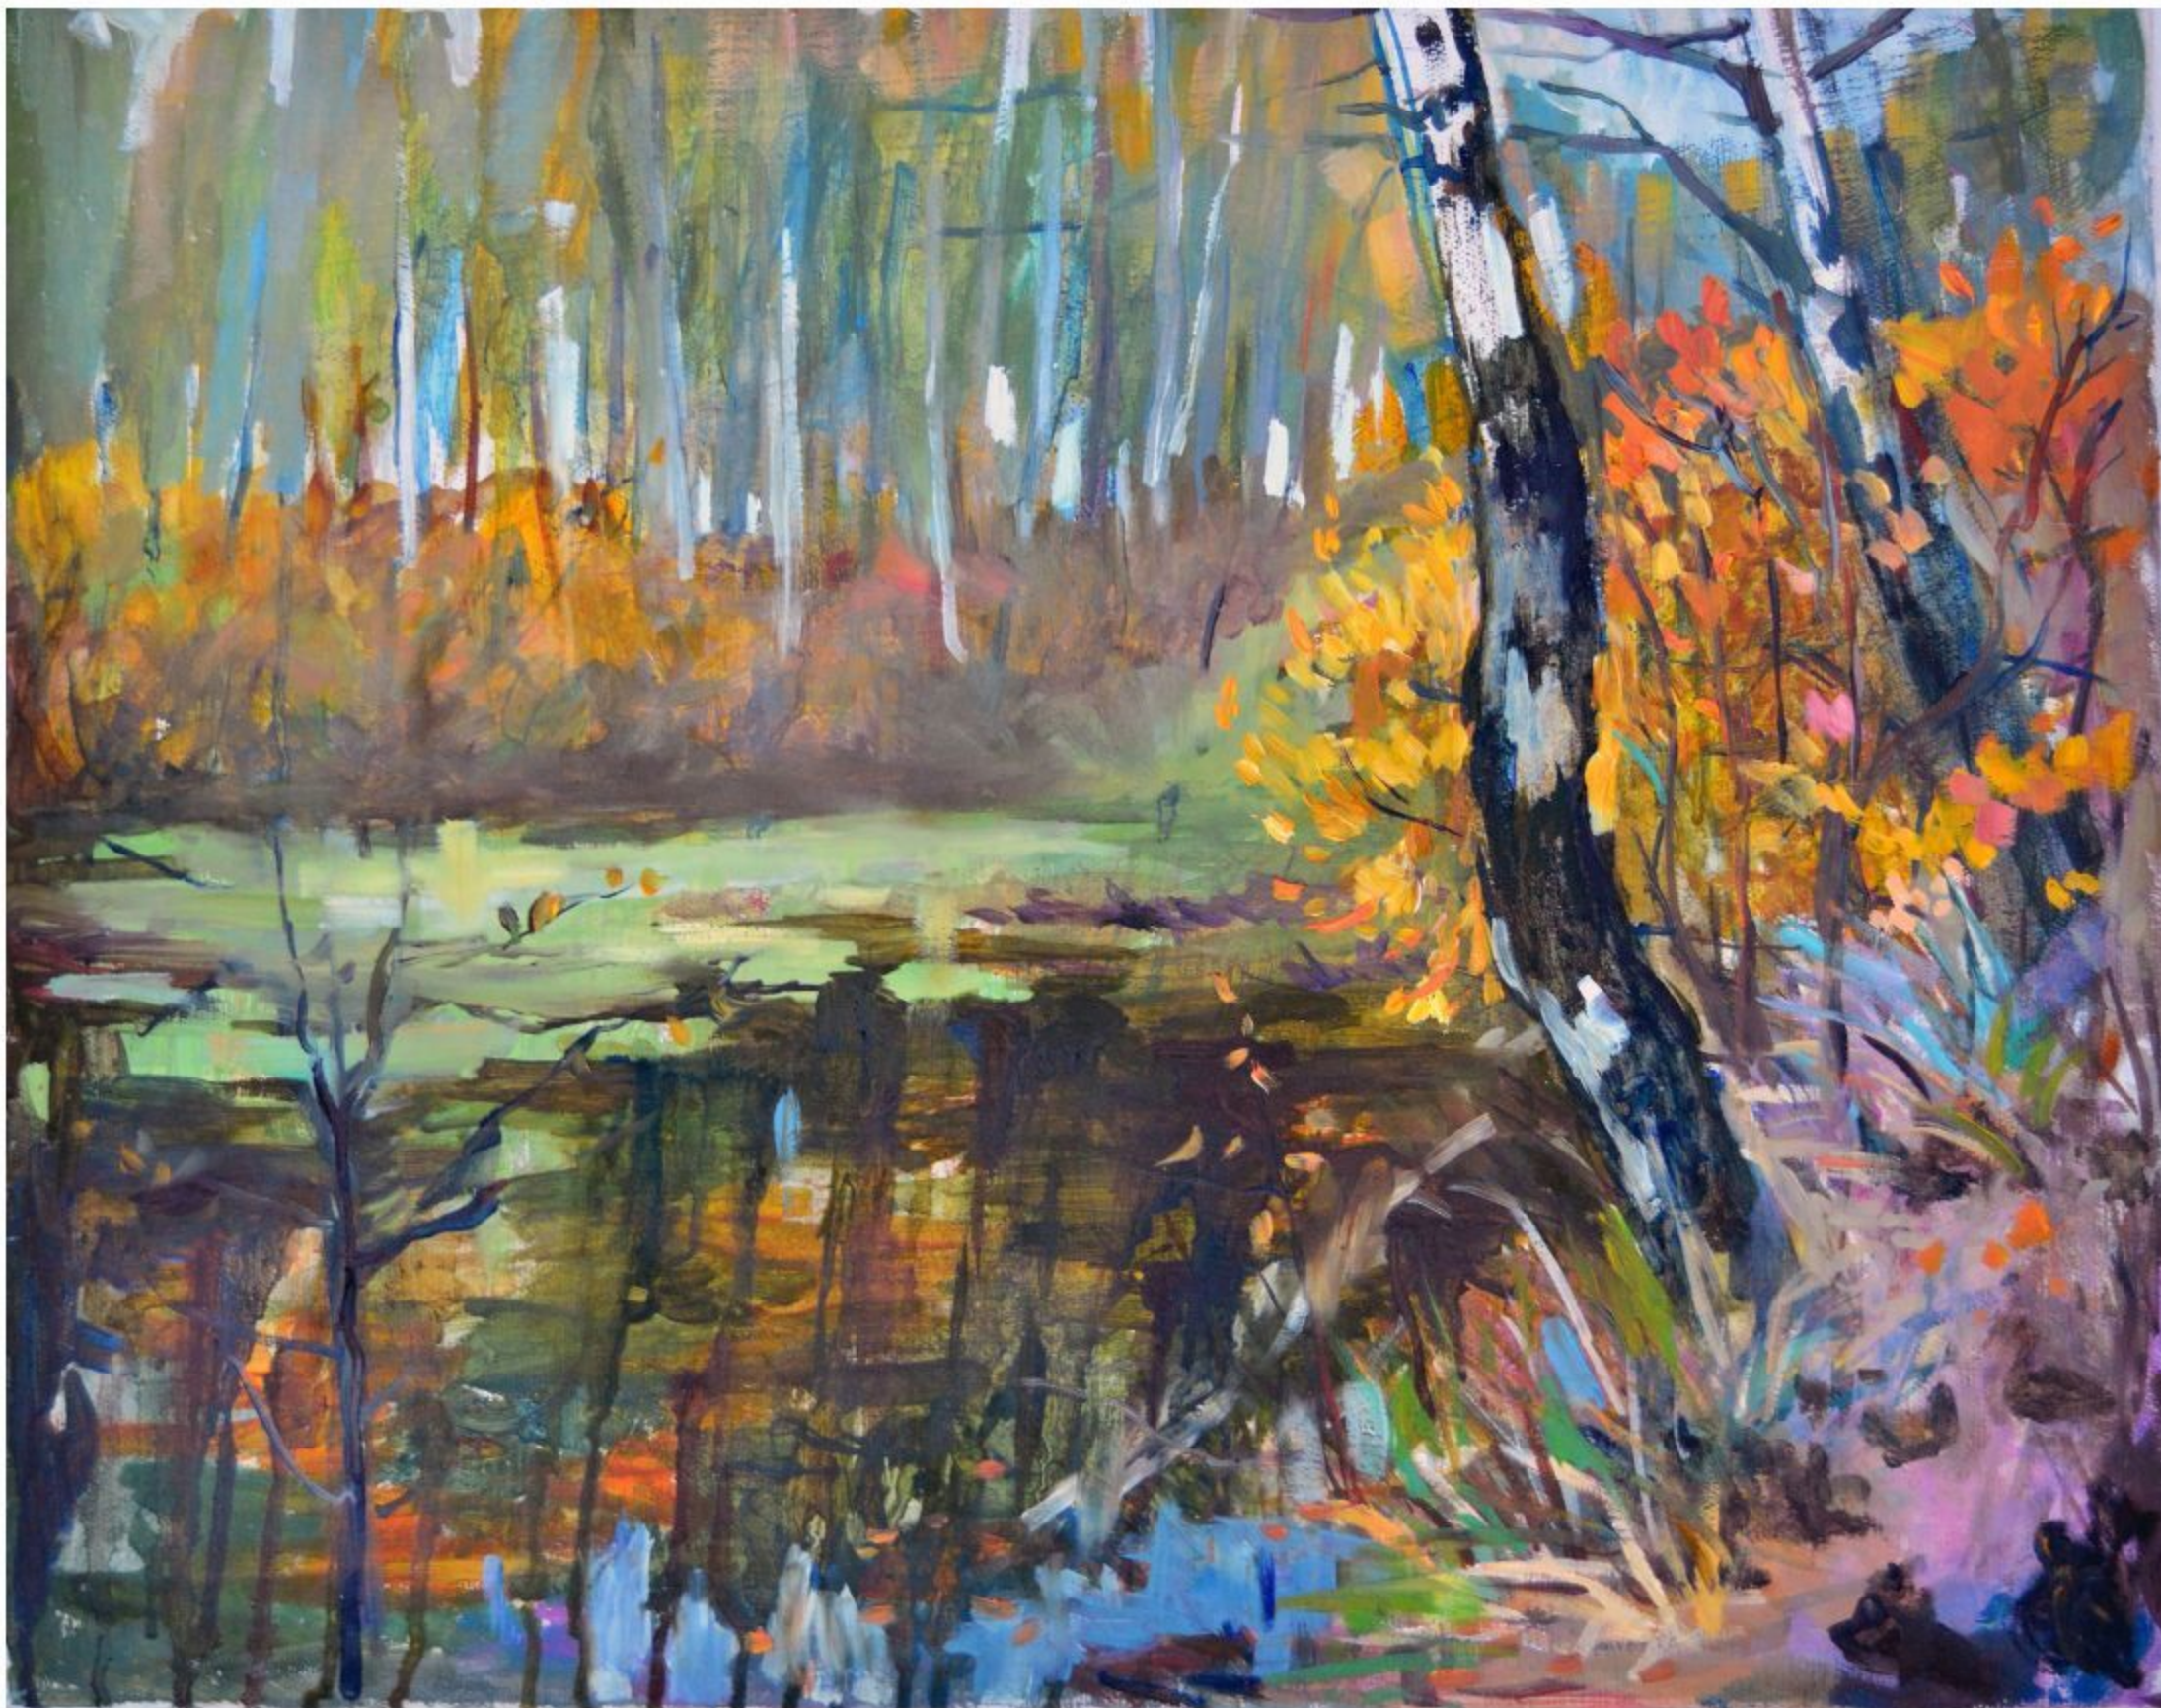

With each atmospheric rendering, the artist elevates the commonplace existence of the forest creatures into a poetic realm that blurs the line between the physical and the mythical. The tender, watchful gaze of the mother goat becomes our guide into these verdant sanctuaries where one can escape into quiescent contemplation of nature's modest miracles. This body of work reminds us that even amid our domesticated existence, whispers of the primal wild still beckon from the shadowed groves.
